# Member Business Meeting

September 20, 2023, 11:00 a.m. - 12:00 p.m.

# Welcome & Meeting Overview

*Josh Dean, CEA Executive Director*

# CEA Antitrust Statement

The purpose of the CEA is to explore avenues of mutual interest and cooperation in building energy policy. It is important to recognize that these activities are subject to certain legal limits imposed by state and federal antitrust laws. One central concern of these laws is with combinations or agreements in restraint of trade whereby competition is reduced by design. In the course of all CEA activities, discussions among members involving pricing, sale terms, territories, production or other aspects of competition, must be avoided. In the event any member ever feels that the course of Alliance activities or statements or actions in Alliance meetings is headed into such an area, members should raise the issue immediately so that further discussion of such matters can be suspended pending receipt of advice satisfactory to the members that the topics addressed do not give rise to antitrust problems.

# Title 24, Part 6 Energy Code and Compliance Manual Format Survey

“The IOU Codes and Standards Program partnered with the California Energy Commission to gather feedback on the structure / format of the Energy Code (Title 24, Part 6) and Single-Family and Nonresidential/Multifamily Compliance Manuals. The CEC heard from building industry professionals that formatting the Energy Code more like other building codes would help energy code users navigate Part 6 more easily. In addition, we are seeking input on the content and format of the Part 6 Compliance Manuals to increase usability.”

Please take this short survey **by October 1** to provide input based on your experience with the Energy Code and Compliance Manuals: <https://www.surveymonkey.com/r/T24Restructure>
